At Neogen this information is copied exactly as it appears in the electronic copy into their database (LIMS)

At least 1 of the animal identifier fields (animal ID, registration, EID) must be filled for each sample. You can choose to provide more details in the other fields, but this is not required. Fill in whatever fields are relevant for your herd.

3. Enter the relevant parent details

6															

IMPORTANT NOTE: Neogen do not know to run parentage unless parent/s are nominated on this front sheet. You are more than welcome to request more than one sire and/or dam per calf (using the Optional Sire and Dam list tabs located at the top of the Form) but please reference these lists on the front sheet as "SEE SIRE/DAM LIST".

If parentage is not required, please do not list parents on the form.

Nominated parents **must** include both the UQ AGL case number or the NAA barcode and the ident/name of the animal. If these are not listed, there may be additional administration fees applied for the time taken to recover these details.

Neogen Australasia Cattle Genotyping Application Form													
Name: Bill & Jane Jones				Address samples for DNA Typing to:									
Address: 123 Lowline Lane				Neogen Australasia									
Foundation Town, NSW 2001				PO Box 1388									
Breed: Australian Lowline				Herd Prefix: BJJ		UQ Gatton Campus							

4. Ensure all nominated parents have a compatible DNA test type

MiP v SNP Compatibility Table:

Parent/s	Progeny	Compatability for Parentage
MiP	MiP	YES
MiP	SNP	NO
MiP	SeekSire	NO
SeekSire	SeekSire	YES

If you are not sure if the nominated parents have been upgraded to a SNP profile (SeekSire) please check the ALCA database or contact the Lowline Registrar for assistance prior to lodging your form with Neogen.
